Summary

Experienced Software Engineer in object-oriented programming and problem solving. Developed multiple applications based on market need. Quick learner of new technologies; successful working in both team and self-directed settings. Certified Scrum Master who has led multiple teams from daily standups to retrospectives.

Technical Skills

Languages: CSS, HTML, JavaScript
Databases:MySQL, MongoDB
Tools: Git and Heroku

Projects

OSGEO
Github: https://github.com/Srassam/OSGEO
Deployed: https://srassam.github.io/OSGEO/.
- Created app to determine what operating system user is on and where they are located.
- The code is mostly JavaScript with a starter html file.

Pomodoro Timer
Github: https://github.com/Srassam/PomodoroTimer
Deployed: https://srassam.github.io/PomodoroTimer/
- Created an app for users to keep track of time for studying and breaks.
- The app uses html,css, and JavaScript.
- Time is stored in local storage, if the user decides to pause and not start over.

Restaurant Finder
Github:https://github.com/Srassam/Project_1_Restaurant_Finder
Deployed: https://srassam.github.io/Project_1_Restaurant_Finder/
- Created an app using web API to find restaurants in proximity of the users location.
- The user is prompted to pick from a number of restaurant categories and radius.
- App generates top 3 restaurants, with options of expanding the results .
- Software used HTML Bootstrap, CSS and Javascript.
